

Would You Rather...?

Choose a path. Justify it.

WOULD YOU RATHER MATH- OPEN ENDED MATH DISCUSSIONS

Visit <https://www.wouldyourathermath.com/category/3to5/> and complete one task. Be sure to record your thinking and justify your answer. See the example below.

See the following example:

Which would you rather have?

Option A

Option B

8 packages of Ghost Peeps

3 packages of Pumpkin Peeps

www.wouldyourathermath.com

h/t @klrust1

My Justification:

I would choose option A. First of all, in both cases, you would get the same amount of marshmallows. Option A there are 3 marshmallows per pack \times 8 packages = 24 marshmallows. Option B there are 8 marshmallows per package \times 3 packages = 24 marshmallows. I would choose option A because the marshmallows are larger and therefore you would get more marshmallow.
