

PICKING THE PERFECT READING SPOT

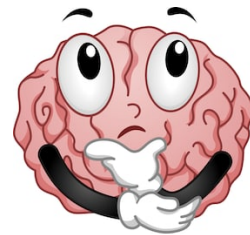

Choosing a reading spot is a very important task!

Different people work best in different environments. Some people like to sit at a desk, and others like to lay in bed! Some like to sit in a big comfy chair, and others like to sit at a table.

THINK about what you need

- bright or dim light?
- Noisy or quiet space?
- Hard or soft seating?
- Laying down or sitting up?

Plan out a spot and give it a try – you might even make it your own by adding comfy pillows, or pictures that you like.

Once you've tried out reading in your spot, write about it.

If you liked it, give three reasons why it was great!

If you didn't like it, give 2 reasons why you didn't like it, and write down a new spot you'll try tomorrow!
