

Make 10

For each turn, color in 2 or 3 boxes that are touching (sides or corners) and have the **sum of 10**. (For example, you could color in a 6 and 4 or a 7,2 and 1). See how many ways you can make 10.

*If you are playing with a partner, the person to find the last sum of 10, wins that game.

*You could also try this game with a different target number such as 12 or 15.
